Christian Kakulu

Digital Media, Arts, and Technology major at Penn State Behrend.
Photographer, Videographer, Content Creator.

Erie, Pennsylvania, United States

Summary

I am currently junior studying Digital Media, Arts, and Technology at Penn State Behrend. My Interest in digital media and arts began from my childhood days when I would draw and paint. As the years went by, I began to expand my interests into digital media. Over the years, I have created YouTube videos, Social Media content, as well as taken and edited client photos. It has always been such a beautiful thing to see and experience the process of creating something digitally, on paper and or on canvas.

Beauty and creativity to me go hand in hand. Being able to create something and show forth its beauty is to me about bringing positivity. It is a goal of mine to create a better world and I hope to do it by showing forth all its beauty. With combined experience from the classroom and experience working multiple jobs in various industries I have been equipped with great communication skills, taking initiative, being a leader, and excelling at teamwork. To a job, I would bring passion and commitment, as well as my skills and work experience.
